## American Fruit Packers Series #9 Lighthouse Pears

The Ninth in our series of striking and very popular "billboard" refrigerator cars. Micro-Trains has been commissioned to produce this car using their 59500 series steel refrigerator car. The "Lighthouse Pears" label shows Oregon's Yaquina Head lighthouse beaming its light into a stormy sky as the sun sets. Many Oregon land parks are used to show the beauty and "freshness" of the land bountiful with fruit. All done in "four color process", with rose, blue, yellow and black accents. This northwest favorite is the next choice for our collection! For color view, see the web site [www.lowellsmith.net](http://www.lowellsmith.net). All AFP Cars generally are sold out before delivered so your quick response would be wise. This series will continue to release only one "Label" car each year.
